PERFORMANCE

**OMS**  
INTERNATIONAL SERVICES

## CONCEPT

**Beyond the Dome. Beyond Convention.**

Taléo Performance transforms marine connectivity into a sculptural, aerodynamic object where engineering precision meets contemporary yacht design language.

## DESIGN

### Connectivity, Sculpted.

Inspired by the F1 Halo, fluid lines integrate the Taléo Performance into modern yacht profiles seamlessly, enhancing both visual purity and aerodynamic efficiency.

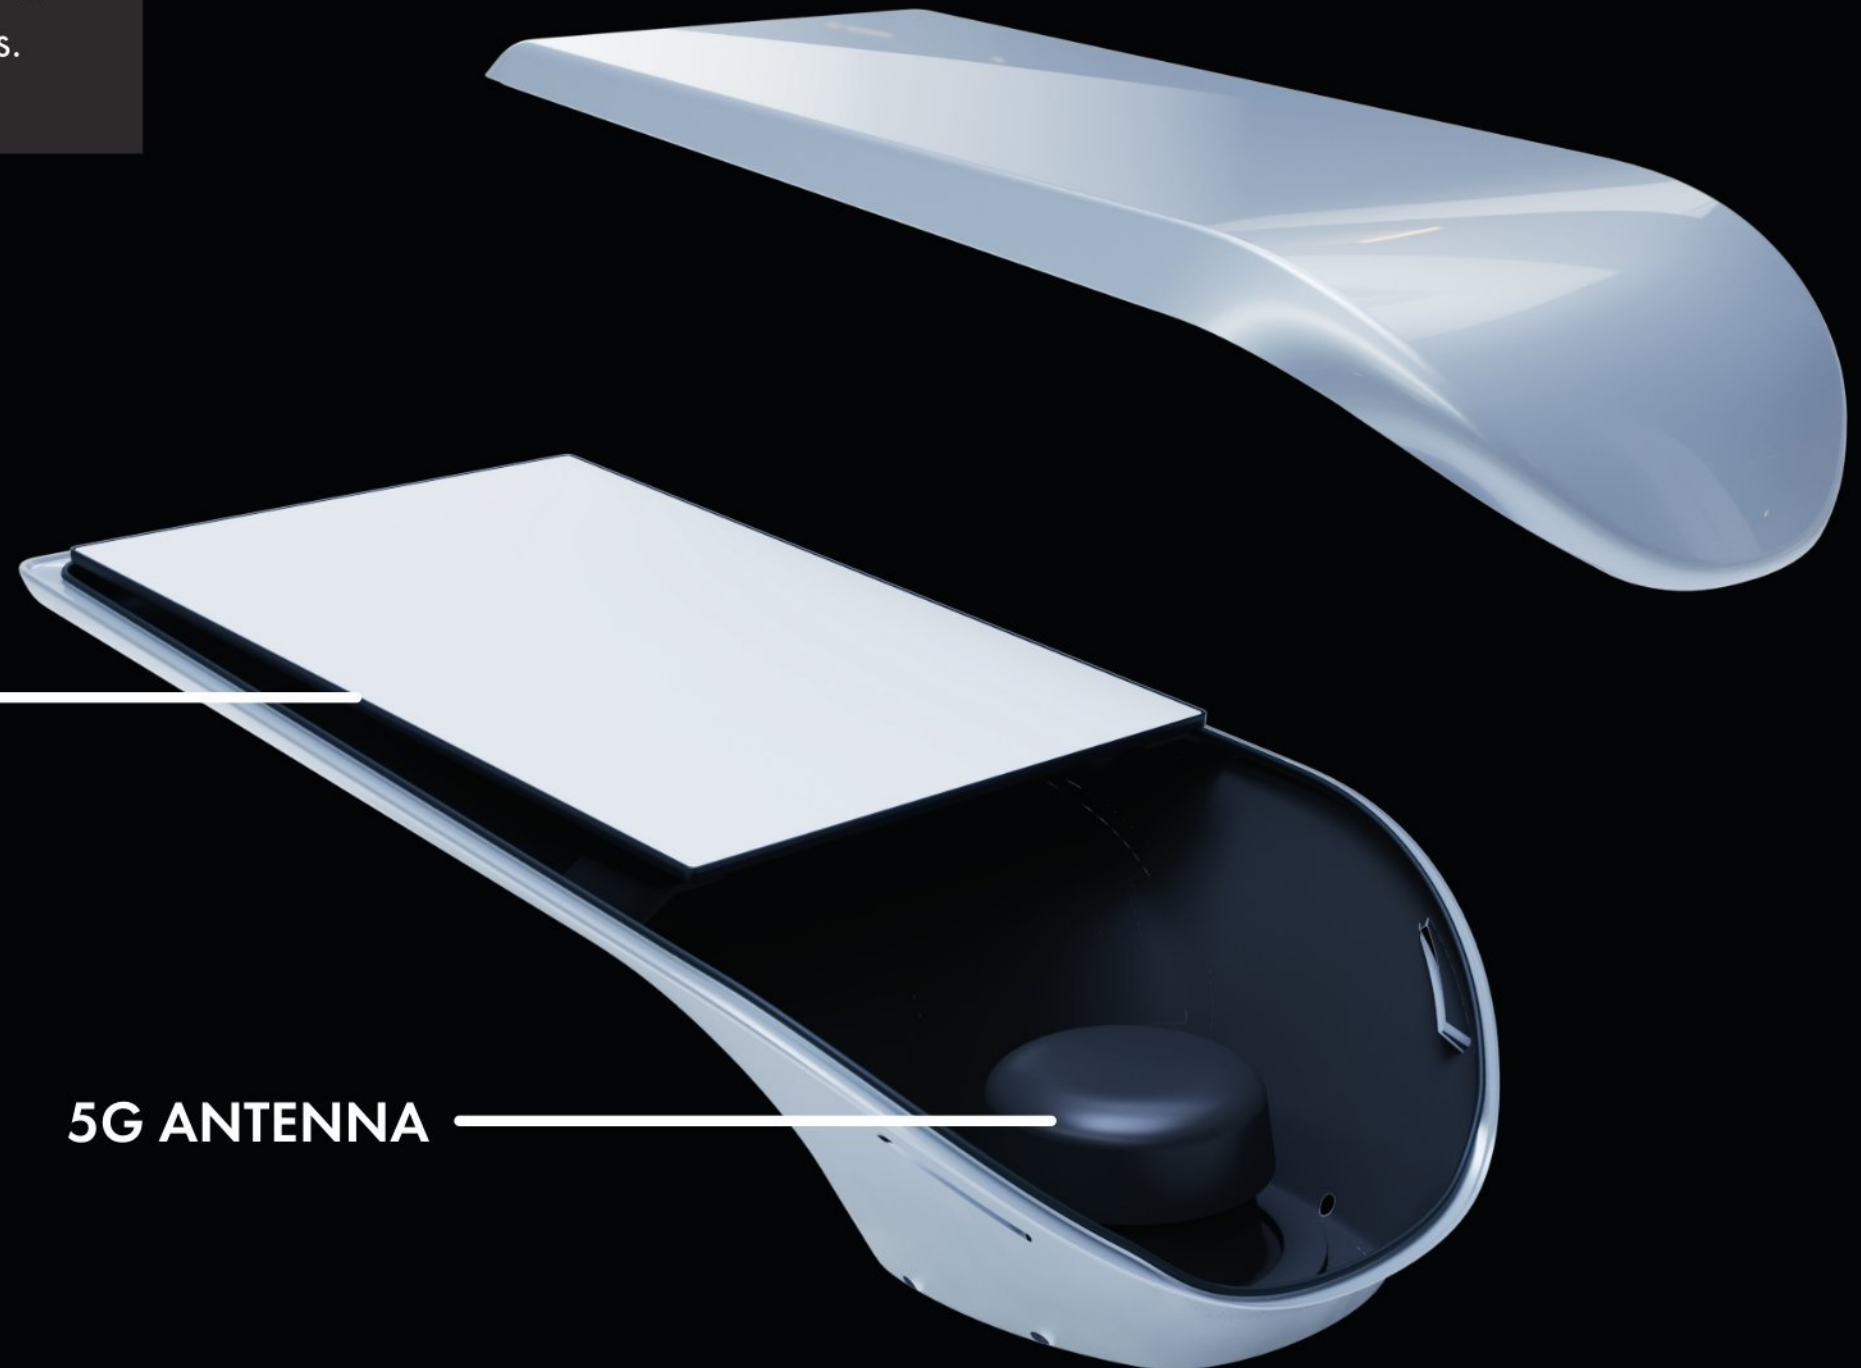

## TECHNOLOGY

### Dual Antennae. A Unique solution.

Integrating 5G and Starlink Gen 3 LEO into a single platform, the Taléo Performance delivers high-speed, low-latency connectivity — from coastal cruising to transoceanic passages.

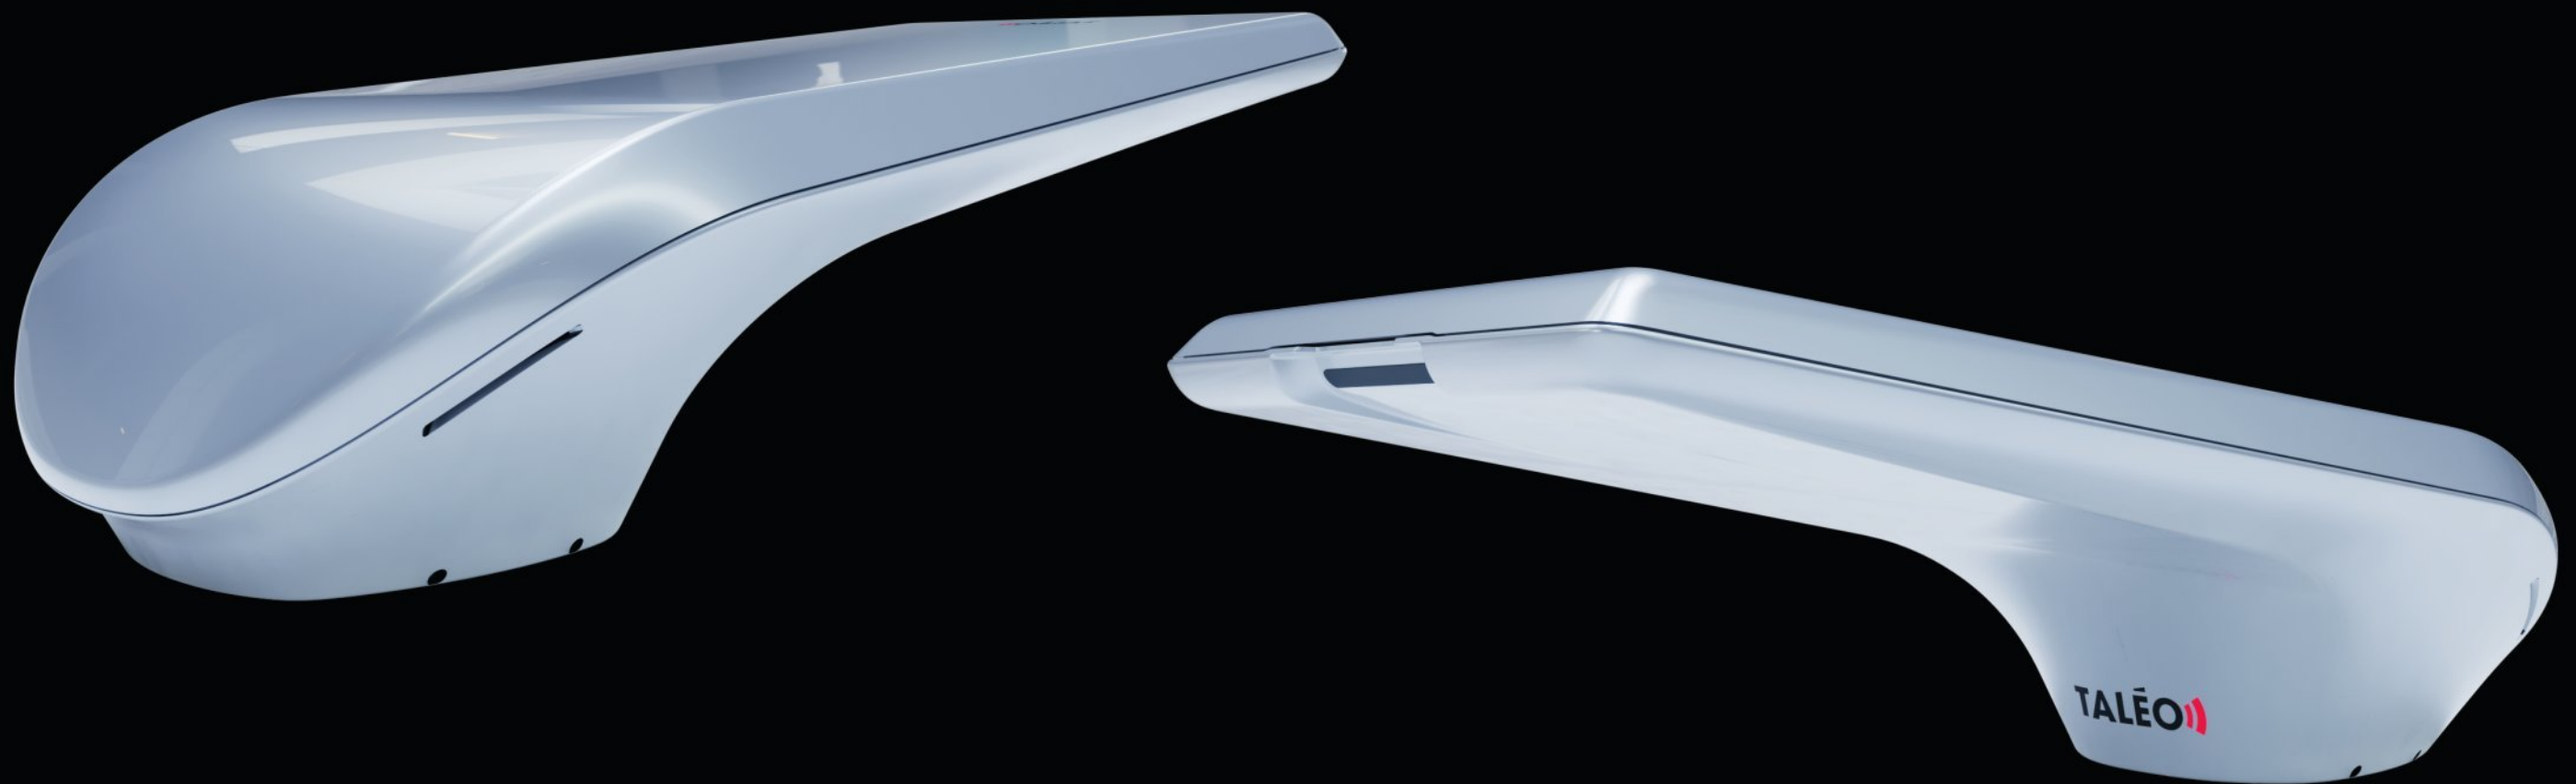

**STARLINK GEN3**

**5G ANTENNA**

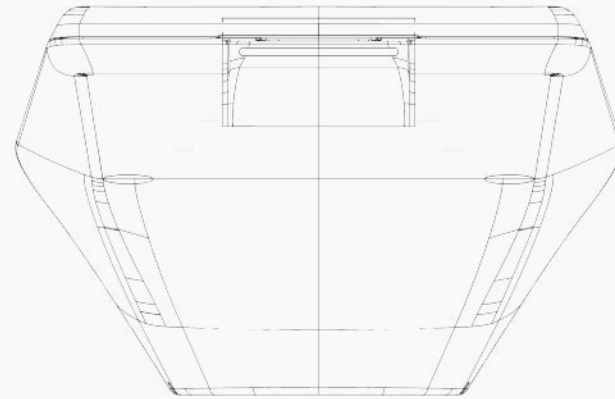

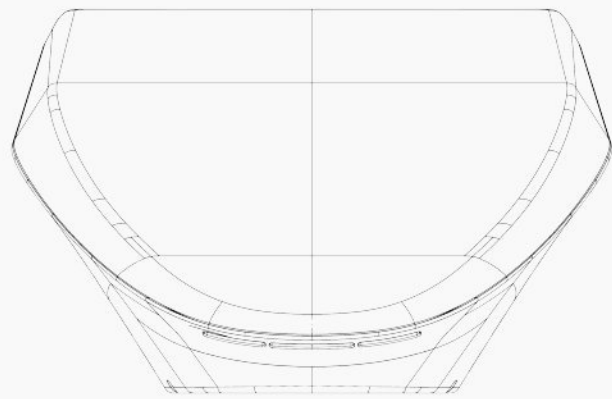

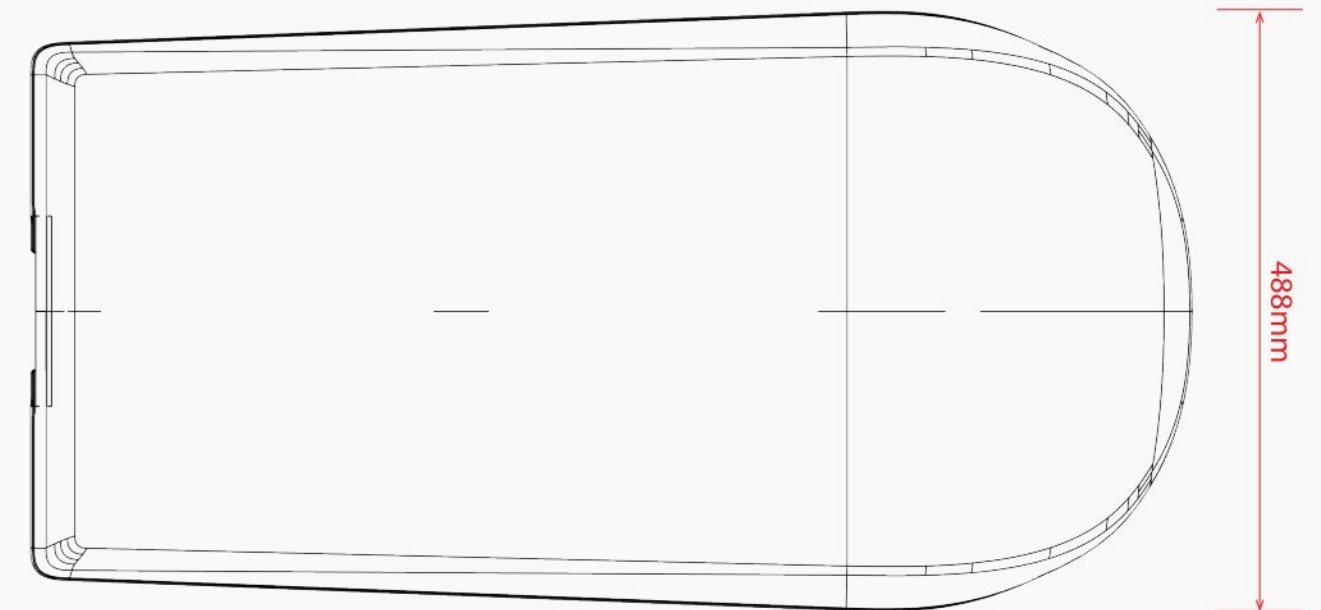

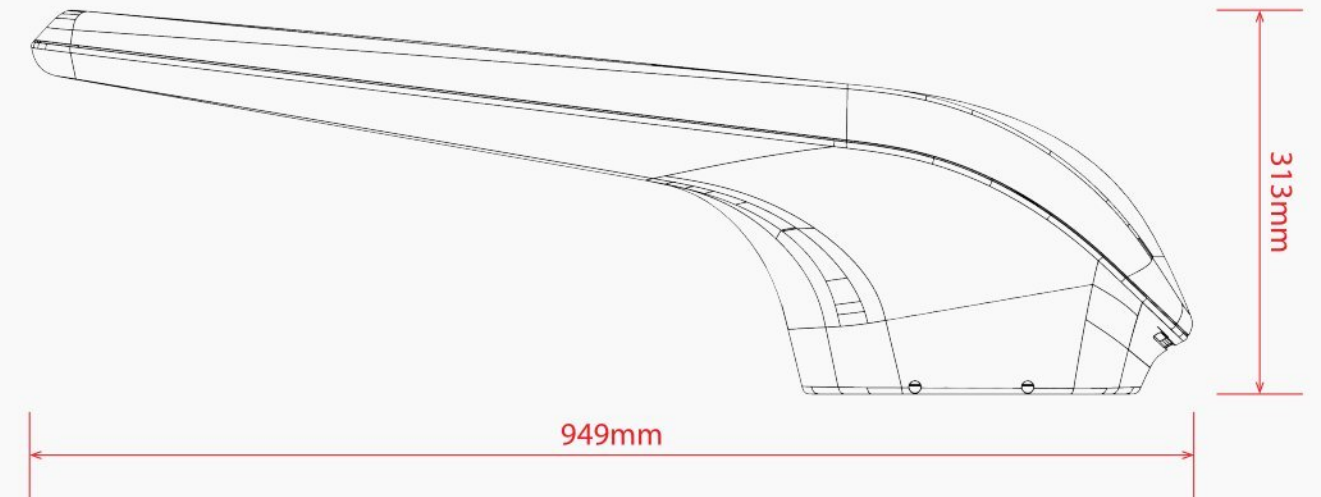

## FEATURES

- . **Secure Housing:** Cover protecting the antennae from atmospheric agents without compromising connection speed.
- . **Precision Mounting:** 4 mounting screws integrated with a high-performance 5G setup, ensure minimal drilling of the vessel's structure.
- . **Aeration and Cooling:** Integrated air intakes and drain holes allow for constant ventilation and superior corrosion control.

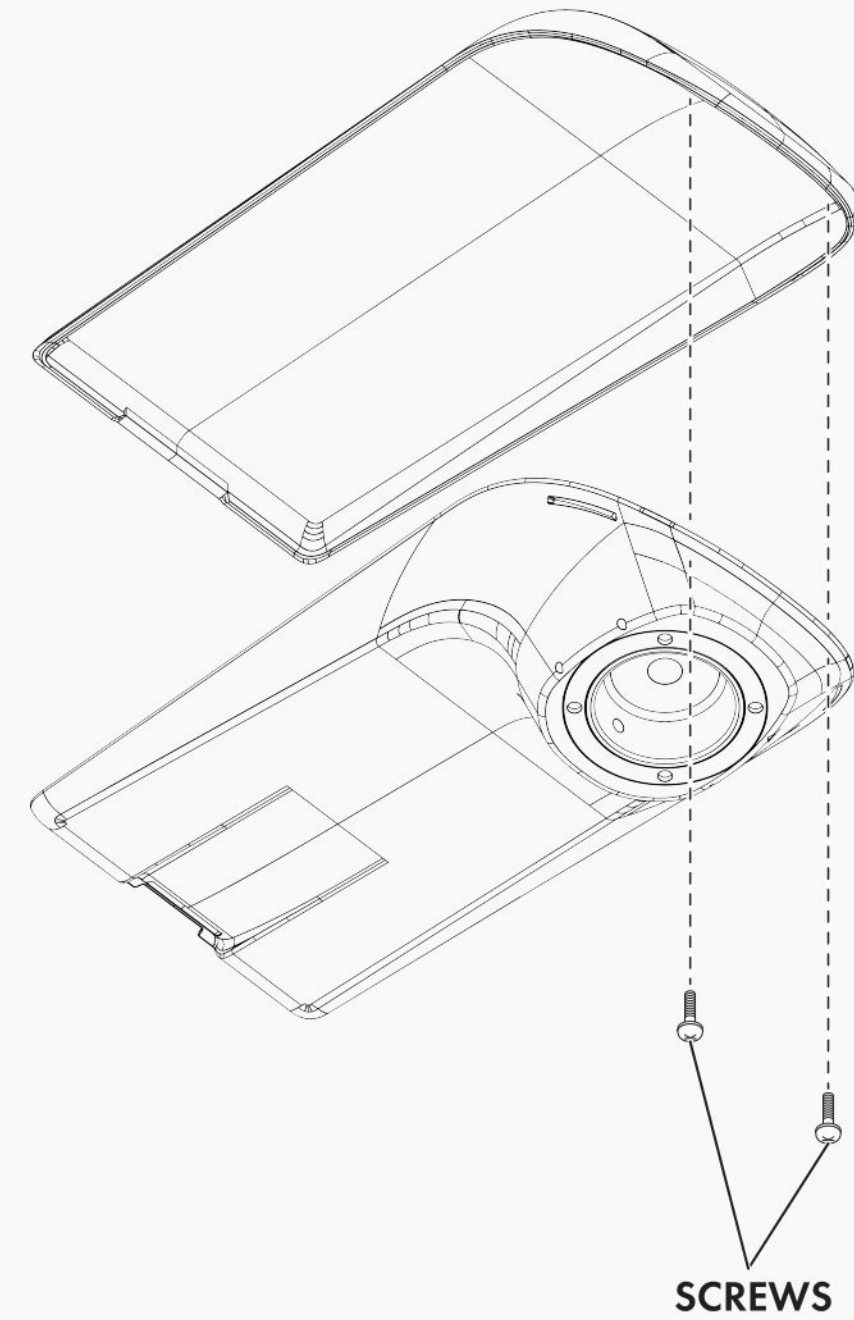

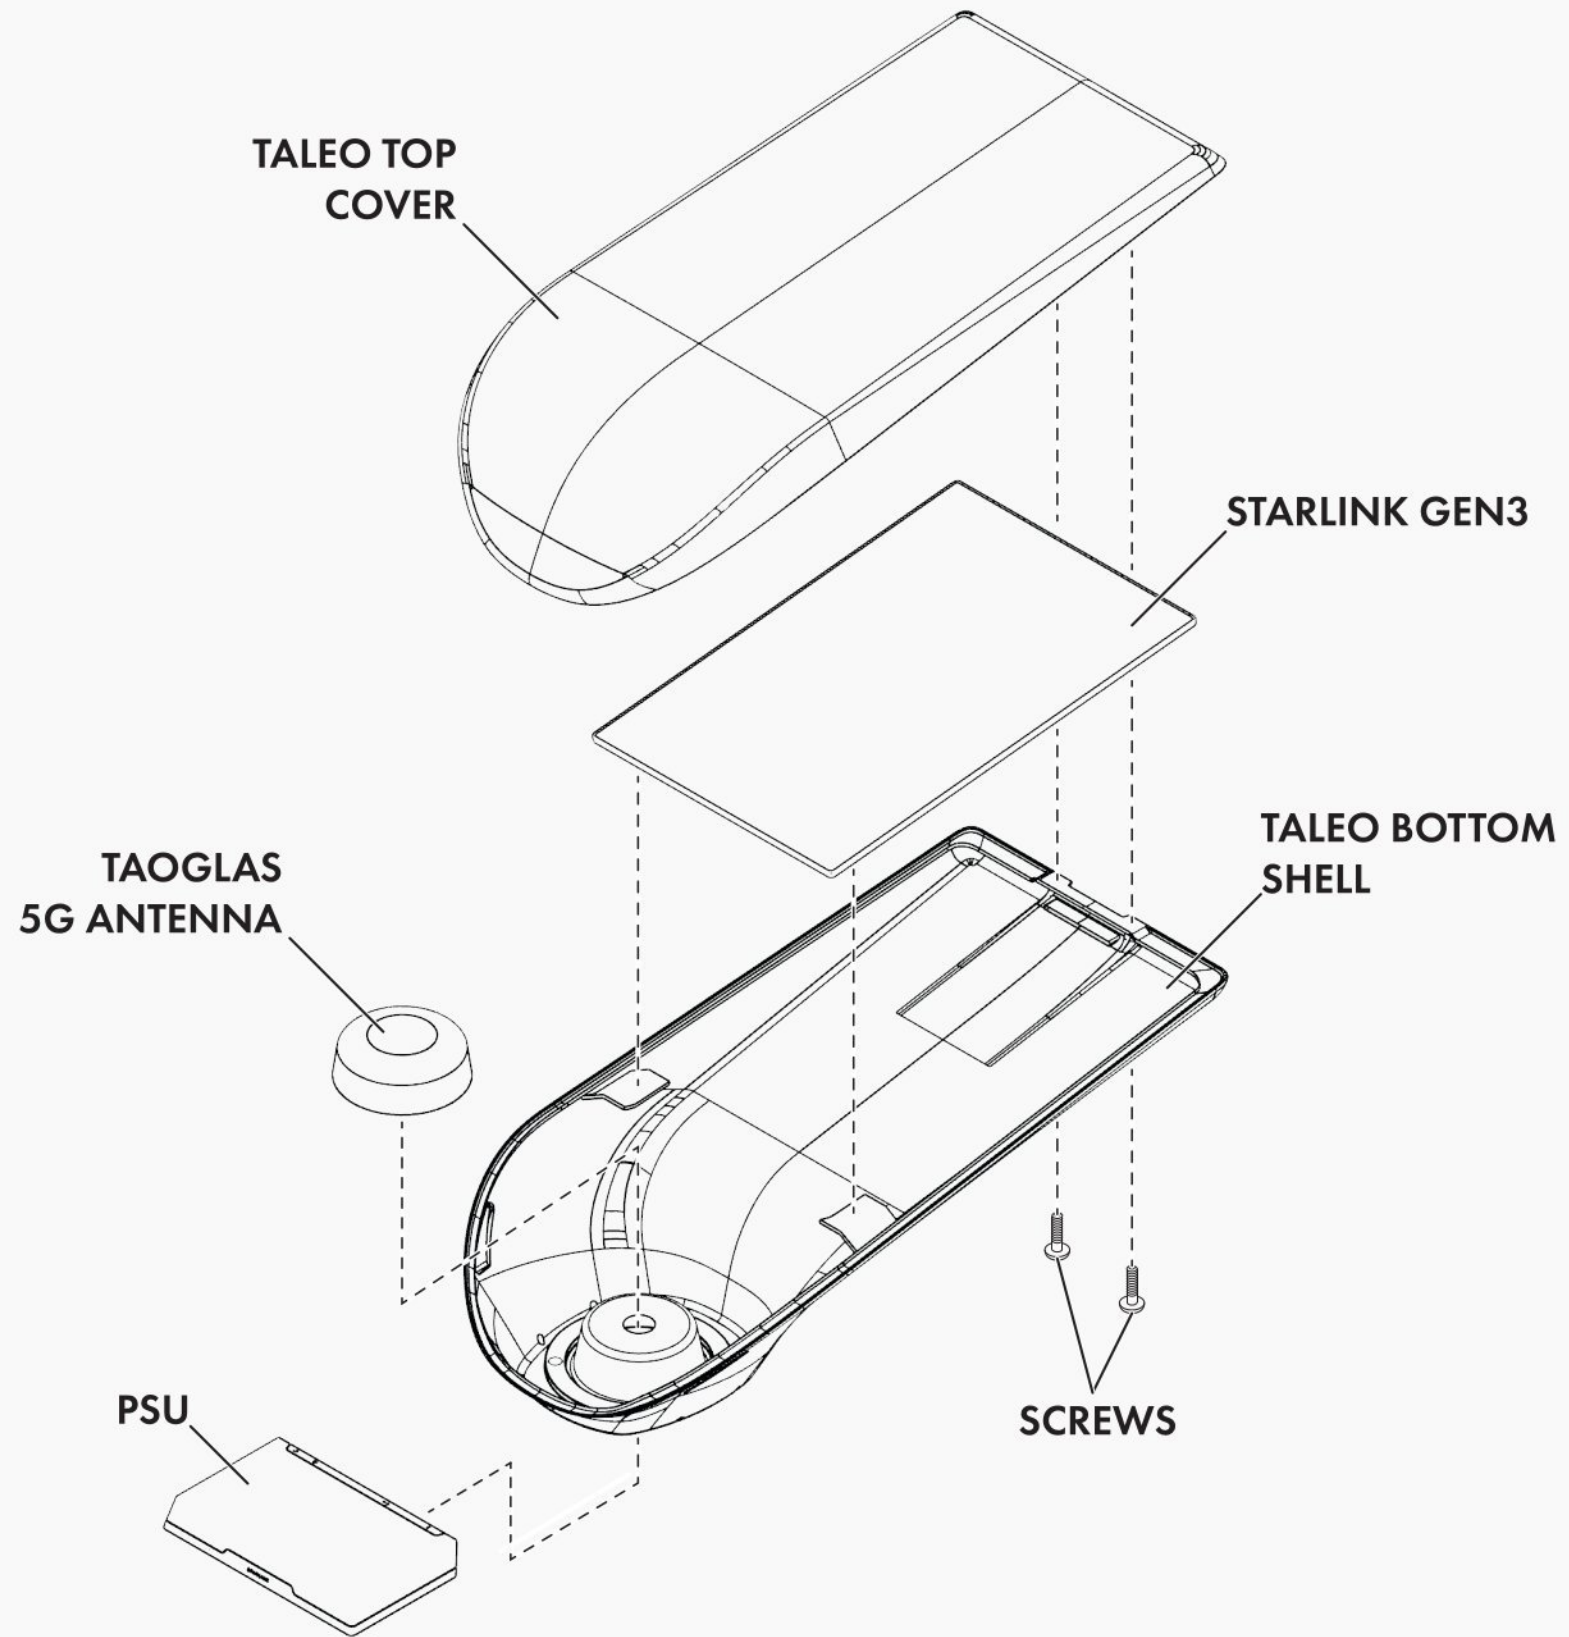

## SPECIFICATIONS

LENGTH	_____	949 mm
HEIGHT	_____	313 mm
WIDTH	_____	488 mm
WEIGHT (with antennas)	_____	13,5 kg
WEIGHT (only shell)	_____	8 kg
5G COMPATIBILITY	_____	TAOGLAS
MATERIAL	_____	FIBER GLASS
FINISHING	_____	GELCOAT
PAINTABLE	_____	YES

UNITS: mm

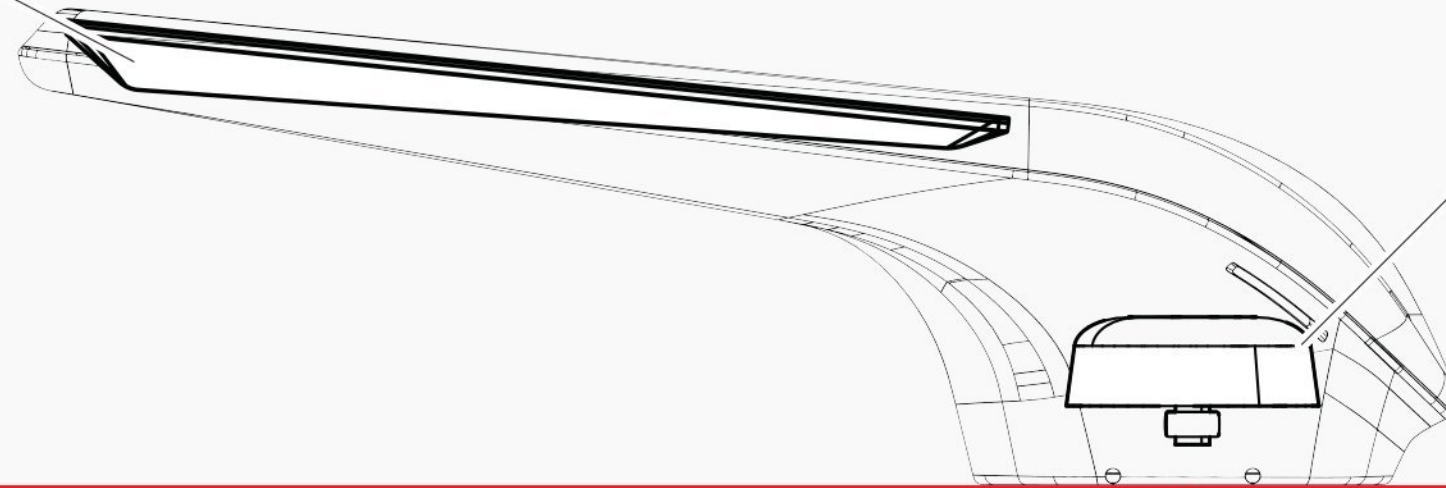

# PERFORMANCE

Optimized for high-speed browsing and challenging environments, Taléo Performance ensures uninterrupted data flow.

## Starlink Performance Gen3

- 140° view range
- Up to 400 Mbps
- -40° to 60° operativity range

5G Antenna

OVER DECK

BELOW DECK

- Peplink B One 5G router
- 2x Gigabit WAN ports, 4x Gigabit LAN ports, 1x USB-C port
- Two concurrent WiFi bands
- Firewall
- VLAN routing
- Multiple SSID WiFi

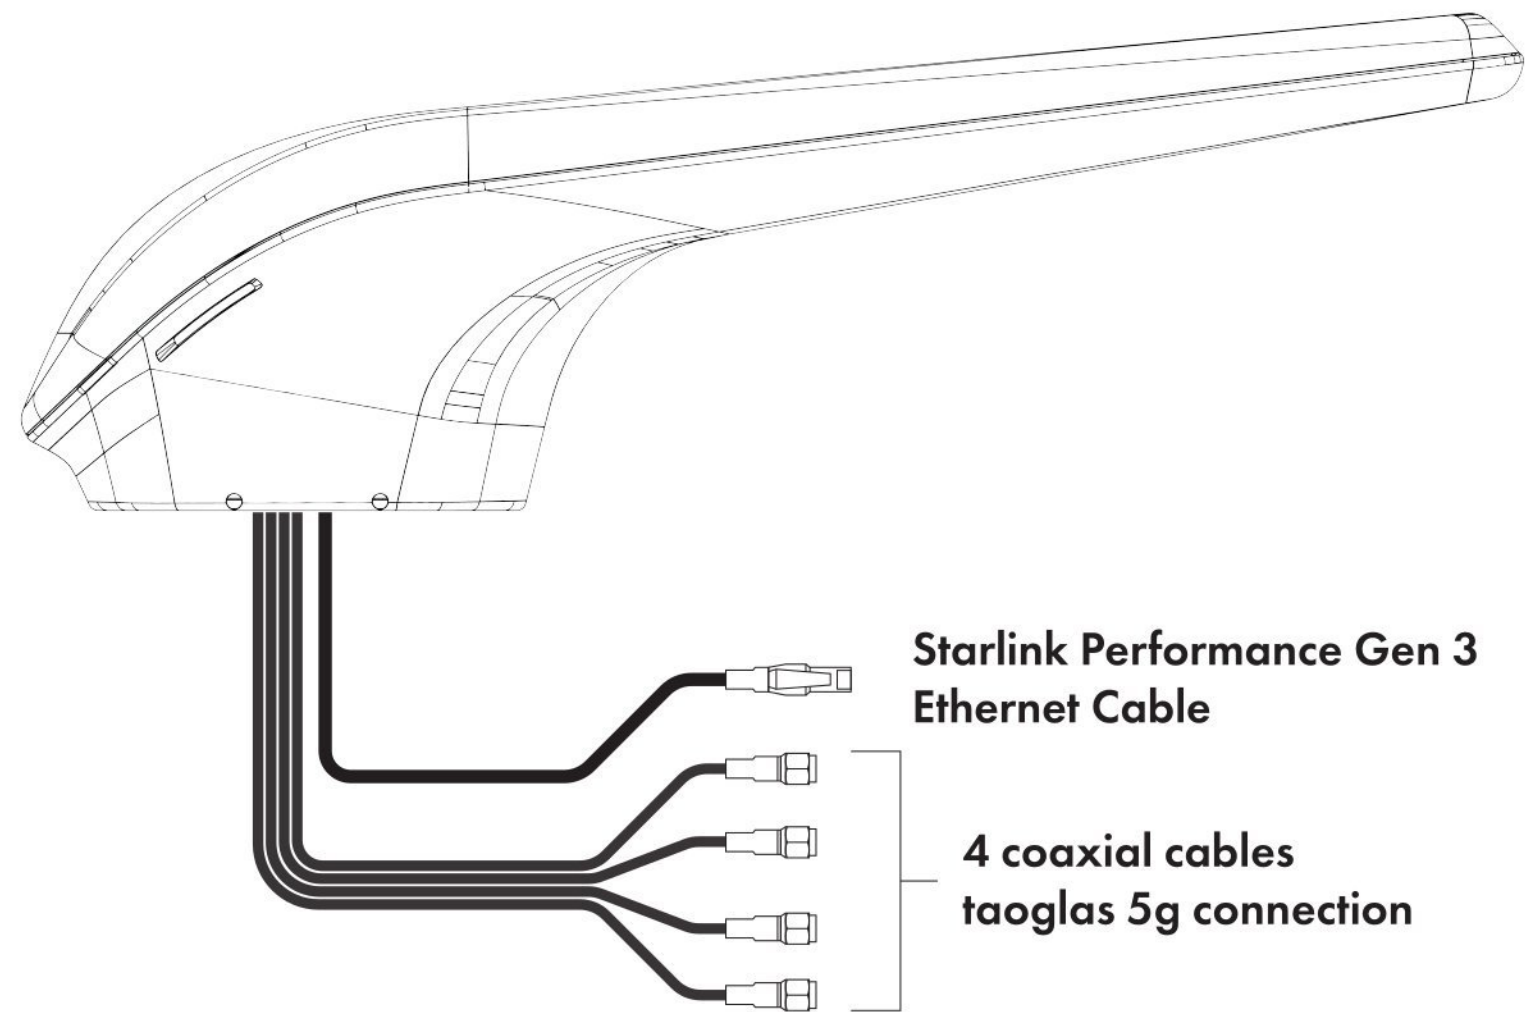

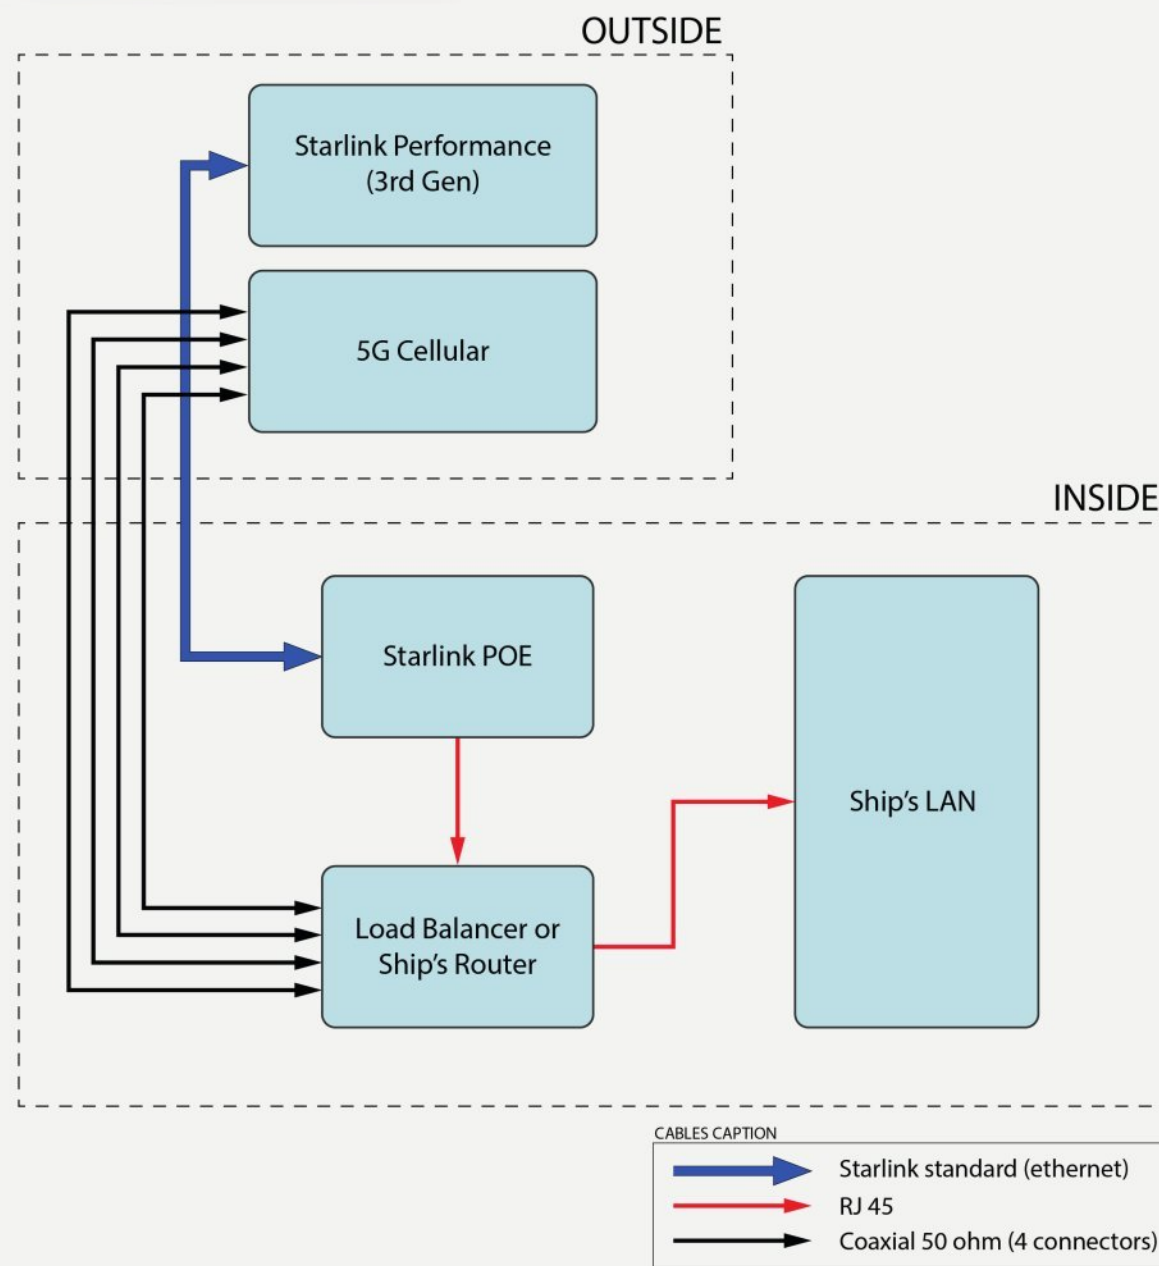

Starlink Advanced Power Supply Unit provide a stable connection bridge to the boat system

# Taléo Performance Electrical Connections

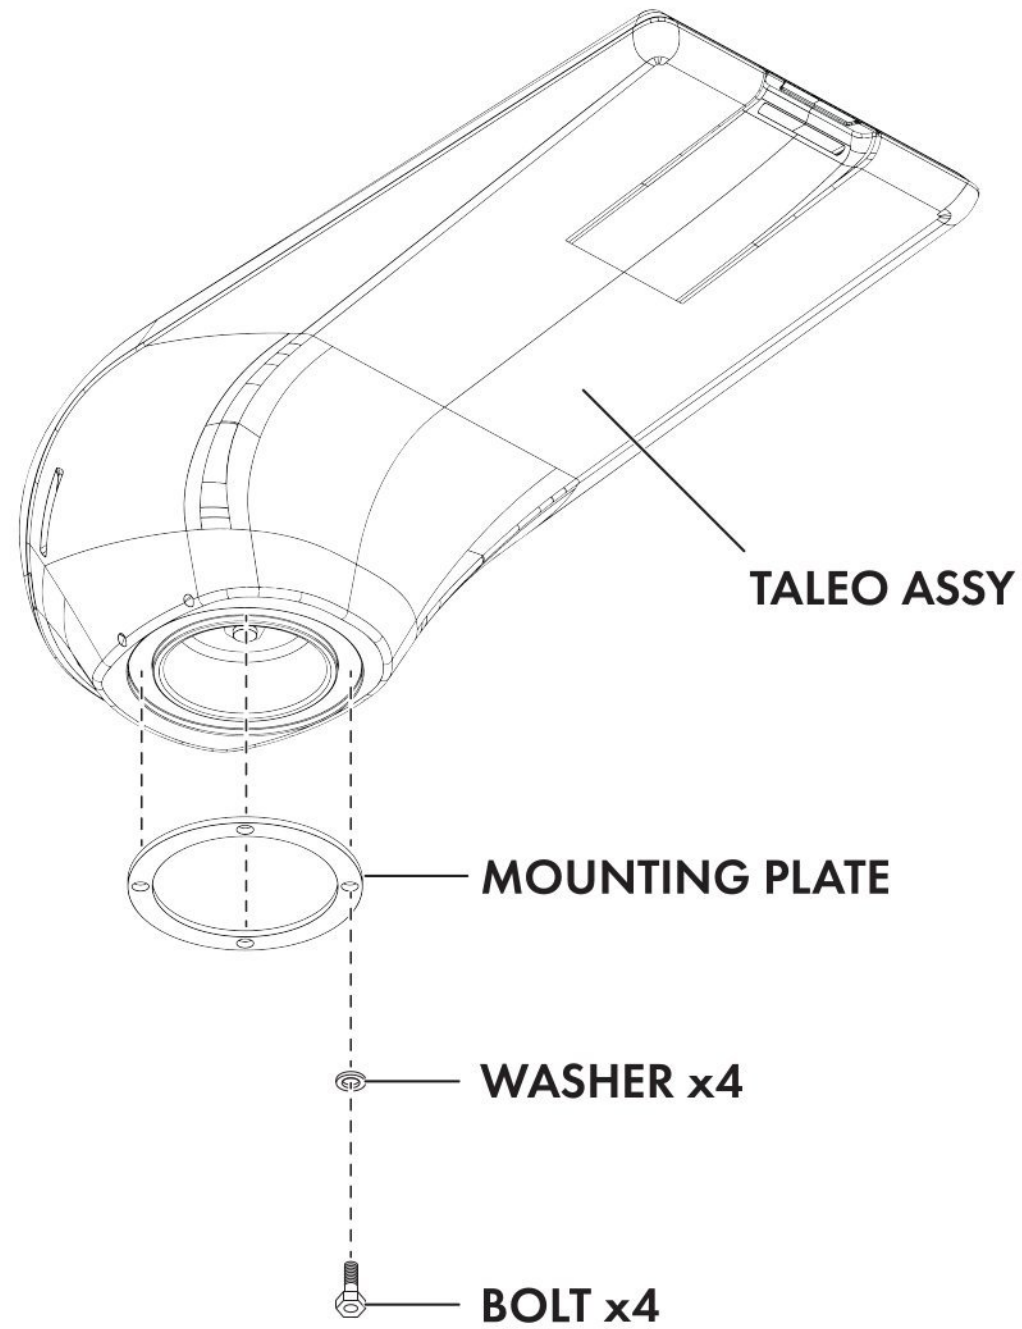

**TALÉO**  
PERFORMANCE

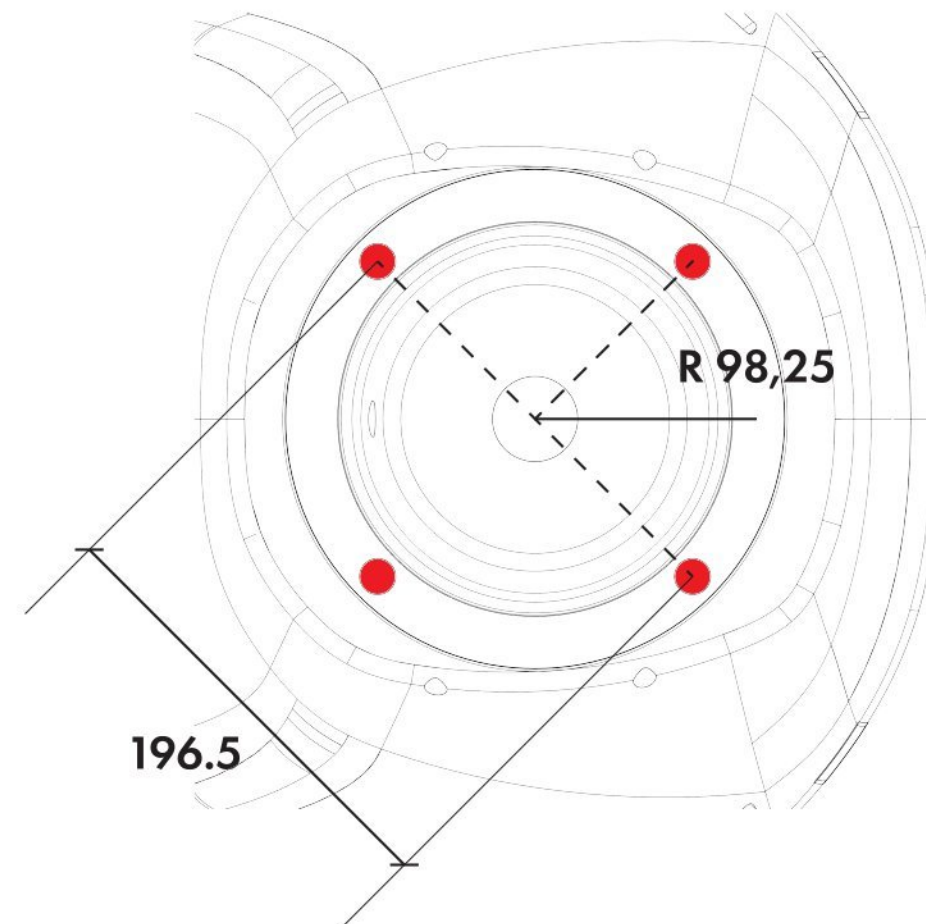

## INSTALLATION

### Plug & Play.

Designed for effortless integration with minimal structural impact, simplified servicing, and reduced lifecycle maintenance — Taléo combines advanced capability with architectural discretion.
